Solution Brief

IRONSCALES Partner Program

A powerfully simple turnkey email security solution for your customers

Phishing attacks are the biggest cyber security threat your customers are facing today. The IRONSCALES powerfully simple email security platform is the perfect addition to your security solution portfolio. Our self-learning, AI-driven email security platform continuously detects and remediates advanced threats like BEC, credential harvesting, account take over and more in your customers' mailboxes.

What's in it for your CUSTOMERS?

- Protection against advanced phishing attacks (BEC, ATO and more)
- Fast onboarding – start seeing value immediately
- Reduced security team workload
- Coverage for multiple email platforms (O365, Gmail, Exchange)
- Integrated security awareness training
- Mobile app provides single-click incident resolution
- Inclusion into the IRONSCALES Community
- Multi-lingual support
- 90-day scanback of all O365 mailboxes
- On-demand simulated phishing campaigns

The Challenge

Your customers are overwhelmed by phishing attacks and need help. You need a turnkey solution that is fast to implement and easy to manage from a straightforward, multi-tenant dashboard. Simply put, all email security solutions are not equal, and customers using cloud-based email from providers like Microsoft and Google need a cloud-first, AI-driven email security solution to keep up with today's phishing threats.

> "IRONSCALES' comprehensive artificial-intelligence phishing protection is aligned with our Dark Rhino promise on delivering value through innovation, so this partnership is a big win for us and our customers."
>
> KEVIN CASEY, CEO OF DARK RHINO SECURITY

★★★★★

"IRONSCALES is an effective and indispensable IT security tool"

– Director, IT and Compliance in the Services Industry

IRONSCALES is a big part of our overall IT security and compliance toolset. The warnings automatically added to headers of suspicious emails, but with incredibly few false alarms, has completely changed the way our end users respond to threats.
